

DO NOT LIGHT PIPE OR GASOLINE CAR

Ar Explosives Expert Tells
Railroad Men to Be
Careful.

An explosion of a tank of gasoline in the railroad yard at Ardmore, Okla., September 27, 1918, was the "horrible example" used by Col. J. L. Taylor, assistant to the chief inspector of the bureau of explosives of the American railway association, in a talk "Explosives and the Railroad Men" at the M. C. A. Thursday night.

The Ardmore disaster resulted in the loss of between 40 and 50 lives and the destruction of fully \$1,000,000 worth of property, according to Col. Taylor, and could easily have been averted had there been a thorough knowledge of the manner of handling gasoline in tank cars.

Generated Gas.
"The car had stood in the railroad yard two days, when orders were received to move it to a refinery," said Col. Taylor. "When the yardmaster inspected the car he observed that some were escaping from it and, knowing the danger of escaping gases, refused to permit it to be moved. The yardmaster was notified and a man, supposedly an expert, was sent down to relieve the pressure of gas inside by spraying the tank. There was a great rush of vapor and liquid from the car. The vapor and liquid rose into the air and spread over a wide area. Within a radius of 500 feet was a switch lamp and an asphalt factory where a fire was maintained to melt the asphalt. The investigators of the accident reported that the vapor from the car had been ignited by the switch lamp or the asphalt factory, and that the explosion of the gasoline car was the result."

Four Other Explosions.
Col. Taylor read from his records of four other oil tank car explosions that had occurred under similar conditions, each entailing loss of life or injury to men and destruction of property.

Men's Responsibility.
"It is an essential to railroad men to know the laws of nature as it is to have a knowledge of other laws and regulations," said Col. Taylor. "You railroad men have a tremendous responsibility and, in order for you to safeguard your own lives and the lives of the public, you must have a knowledge of the rules and regulations affecting transportation, particularly those governing the handling of explosives."

Movie Film.
The speaker called attention to the danger from movie pictures films and cited the regulations that require that films shall not be placed near radiators or other sources of heat. He referred to a fire that occurred in an express car in the northwest, when \$50,000 worth of Christmas packages are destroyed, presumably by some defective film catching fire from a radiator.

How to Handle Explosives.
By means of a projection slides he showed the proper manner of loading dynamite, black powder, acids, cylinders containing gases, to keep them

FOUR PHYSICIANS DID HER NO GOOD

Prominent Indianapolis Lady
Relates How Plant Juice
Benefited Her.

Women everywhere have found great relief from stomach trouble, nervousness, weakness and debility through the use of Plant Juice. It builds up the whole body and strengthens it, clears the blood of all poisons and impurities, stimulates the liver into healthy action, corrects constipation, and clears the system of all malaria and other poisons. Women who have spells of depression and blues, poor circulation, no appetite, and who are pale and listless, find Plant Juice just what they need. It instills new life and vigor, soothes the nerves, brightens the eyes, and removes the complexion. Did it give results other than are outlined, there would never be the demand and the Plant Juice. It does all and more than is claimed for it.

SUNDAY SCHOOL CLASS STARTS FREE NIGHT SCHOOL FOR GIRLS

A free night school for American women and girls has been organized by the Fidelity Sunday school class of the First Baptist church. The school is to be called the Fidelity Cooperative school and will be held in the Fidelity class room at the First Baptist church. Its purpose is to provide an opportunity for American working women and girls to learn stenography, book keeping, typewriting and English literature, who would otherwise be unable to take up these studies. In order that the school will reach this class, there is but one restriction and that is that no student will be accepted whose monthly wages exceed \$10 a month. If she boards herself, \$10 a month if she is boarding with relatives. The teachers' services are given voluntarily. Information concerning the work and the hours may be obtained by phoning 3375-J after 6 o'clock at night.

RAFAEL CASTRO SAYS DOESN'T KNOW HOW MANY HE KILLED

Rafael Castro, said to have been the successor to Gen. Fierro as chief of Francisco Villa's bodyguard, was fined \$200 in the corporation court Thursday afternoon on a charge of vagrancy. He committed the First Battle of Torreón was fined \$25 on a charge of vagrancy and because of bad company. Castro accepted the fine stoically. He asked many questions during the prosecution of his case but to all of them answered "no." One of the queries was "How many men have you killed," and he replied, "I don't know how many."

BEST MEDICINE FOR SEVERE COUGHS, BRONCHIAL AFFECTIONS AND COLDS

Kelly & Ellard Selling Medicine at Half-Price.

Any person call at Kelly & Ellard's and present the coupon below, properly signed, will be entitled to a regular 50c bottle of Schiffmann's New Concentrated Expectorant for half price. With a view to giving those who have not yet used this excellent remedy an opportunity of trying it in the treatment of all bronchial affections, including Bronchitis, Bronchial Asthma, Whooping Cough, Severe Cough, Croup and Hoarseness to prove its merits, all persons applying are thus given a chance to obtain a regular 50c bottle for 25c by presenting the coupon below. Even though not in need of such medicine at the present time, it will pay to buy one as some such medicine is sure to be required before the winter is over, but this remedy can be obtained at half price again. This excellent new remedy is sufficiently concentrated so that 2 ounces, when mixed with simply one

plant of granulated sugar and one-half pint of water (according to printed directions) makes a whole family supply (125 teaspoonful) as much as would ordinarily cost \$2.00 to \$2.50 for the same quantity of the old, ordinary, ready-made kinds of cough medicine, of doubtful merit and without a guarantee. It is prepared from strictly purest plants, contains absolutely no opium, morphine or any other narcotic or injurious drugs as do most Cough Remedies, and can therefore be given to children with perfect safety. It is pleasant to take and children are fond of it. Besides, absolutely no risk whatever is run, but it is not found the very best remedy ever used. If a neighbor or friend could be induced to divide and pay for half the quantity, the cost would thus only be about 12c to each.

TWENTY-FIVE CENT COUPON—NO. 1.

This coupon and 25c is good for one (only) 50c bottle of Schiffmann's New Concentrated Expectorant at Kelly & Ellard's. If your name and address is filled in.

14 YEARS Ago Today

From The Herald of This Date, 1902.

At the sheriff's office today it was expected that sheriff J. H. Boone would arrive from Dallas with count J. Edgar Hoover and Italy. They were treated most courteously in the east Texas city, having been allowed to stop at a private residence in charge of an officer, in place of the jail. Their arrival here is looked forward to as an event.

J. Stolaroff is on his way to New York to buy spring goods.

T. M. Springer is expected back today from a business trip east.

Judge Ellis Douthett, of east Texas, is in town visiting Mrs. Z. B. Clark, his aunt.

C. R. Williams, proprietor of the Franklin hotel, left this morning for California.

The second hand store of T. M. Ryan was entered last evening and goods valued at \$25 stolen from it.

Frank C. Earle, manager of the El Paso smelter, is out of town on a ten days' business trip to the east.

Mrs. William Moore left for Los Angeles this morning after a short visit here with Mrs. and Mr. C. E. McLean.

Mr. and Mrs. John Taylor left this morning for points on the Pacific coast, where they will spend the next several weeks.

Big deals in Mexican timber seem to be coming in a bunch, with local dealers shipping all over the lot on the signs of unusual business.

A grounded wire caused the fire whistle to blow several times this morning, but although all the volunteer boys jumped up and got dressed, the gong did not sound in the fire house at all.

A readjustment of insurance rates for El Paso has just gone into effect, which is causing considerable comment among many insurers, but which, it is contended, works more for a lowering of present rates than for increasing them.

Mr. and Mrs. Henry L. Newman have returned to El Paso from their wedding tour and expect to locate here. Their wedding took place in Detroit, Mich., and was reported as one of the most important social functions of the season in that northern city.

Careless Use of Soap Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mild soap or coconut oil (which is pure and gentle), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mild coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.—Adv.
